## ALPACA PELLETT

GROWING, BREEDING AND  
LACTATING ALPACAS AND LLAMAS

A nutritious and balanced pelleted ration for  
the supplementary feeding of Alpacas and Llamas.

### WHAT WILL IT PROVIDE MY ALPACAS AND LLAMAS?

---

Specifically formulated to create a balanced diet for Alpacas and Llamas when fed out with good quality pasture and hay.

---

Provides a mineral and vitamin supplement specifically formulated to meet the nutritional needs of Alpacas and Llamas.

---

Contains an added source of organic selenium which is a critical nutrient for Alpacas and Llamas and often deficient in Australian soils.

---

High energy feed to help maximise milk production.

THIS FEED IS UNSUITABLE FOR HUMAN CONSUMPTION.

**This feed does not contain Restricted Animal Material.**

The information provided in this specification is exclusive to the product identified and correct at the time of writing. The manufacturer accepts no responsibility if this feed is used in quantities, conditions or in any way other than in accordance with the manufacturer's recommendations.

#### STORAGE REQUIREMENTS

Store under cover in a cool, dry place below 30°C and protected from exposure to direct sunlight.

PRODUCT CODE 102065

PROUDLY MADE IN AUSTRALIA  
USING INGREDIENTS SOURCED  
FROM AUSTRALIAN FARMERS.

### HOW MUCH SHOULD I FEED?

Barastoc Alpaca Pellets are intended as a supplementary feed for Alpacas and Llamas at all life stages post weaning.

Before starting to feed Barastoc Alpaca Pellets ensure that a plentiful supply of high quality pasture or hay is available and that animals are able to eat this to appetite.

Alpacas and Llamas prefer to be fed at ground level and individually.

It is important to introduce Barastoc Alpaca Pellets gradually to their diet over a 2 - 3 week period to minimise the risk of acidosis.

As a guide, start feeding Barastoc Alpaca pellets at a rate of 0.25kg per 50kg of body weight per animal per day. Gradually increase the feeding rate over the next 21 days to 0.70kg per 50kg of body weight per animal per day.

Ensure fresh, clean drinking water is available at all times.
