Store under cover in a cool, dry place below 30°C and protected from exposure to direct sunlight.

**PRODUCT CODE** 102058

PROUDLY MADE IN AUSTRALIA  
USING INGREDIENTS SOURCED  
FROM AUSTRALIAN FARMERS.

### HOW MUCH SHOULD I FEED?

Barastoc Goat Mix is intended as a supplementary feed for goats at all life stages post weaning.

Before starting to feed Barastoc Goat Mix ensure that a plentiful supply of high quality pasture or hay is available and that animals are able to eat this to appetite.

Animals should be fed Barastoc Goat Mix in troughs.

It is important to introduce Barastoc Goat Mix gradually to their diet over a 2 - 3 week period to minimise the risk of acidosis.

As a guide, start feeding Barastoc Goat Mix at a rate of 0.25kg per 50kg of body weight per animal per day. Gradually increase the feeding rate over the next 21 days to 0.80kg per 50kg of body weight per animal per day.

Ensure fresh, clean drinking water is available at all times.
