The information provided in this specification is exclusive to the product identified and correct at the time of writing. The manufacturer accepts no responsibility if this feed is used in quantities, conditions or in any way other than in accordance with the manufacturer's recommendations.

STORAGE REQUIREMENTS

Store under cover in a cool, dry place below 30°C and protected from exposure to direct sunlight.

PRODUCT CODE 102055

PROUDLY MADE IN AUSTRALIA
USING INGREDIENTS SOURCED
FROM AUSTRALIAN FARMERS.

HOW MUCH SHOULD I FEED?

Barastoc Goat Pellet is intended as a supplementary feed for goats at all life stages post weaning.

Before starting to feed Barastoc Goat Pellet ensure that a plentiful supply of high quality pasture or hay is available and that animals are able to eat this to appetite.

Animals should be fed Barastoc Goat Pellet in troughs.

It is important to introduce Barastoc Goat Pellet gradually to their diet over a 2 - 3 week period to minimise the risk of acidosis.

As a guide, start feeding Barastoc Goat Pellet at a rate of 0.25kg per 50kg of body weight per animal per day. Gradually increase the feeding rate over the next 21 days to 0.80kg per 50kg of body weight per animal per day.

Ensure fresh, clean drinking water is available at all times.
