

BARASTOC

PIG FEEDS

PIG BREEDER

PELLETED PIG FEED

A highly palatable, nutrient-balanced feed specifically formulated for feeding lactating sows, dry sows and boars through the breeding cycle.

WHAT WILL IT PROVIDE MY PIGS?

Provides lactating sows with daily nutrients required for optimal milk production, piglet vitality and growth, body condition, re-mating and longevity.

High energy content with correctly balanced amounts of amino acids for pigs at all stages of the breeding cycle.

Ingredients carefully selected and processed to provide a highly digestible diet for breeding pigs.

NUTRIENT LEVELS TYPICAL ANALYSIS AS FED PER KG

NUTRIENT LEVELS			
Min Crude Protein	15.0%	Min Added Copper	15mg
Min Crude Fat	2.5%	Min Added Selenium	0.2mg
Max Crude Fibre	8.5%	Min Digestible energy (estimated)	13.5MJ
Max Added Salt	0.25%	Available Lysine (g): Digestible energy (MJ)	0.45

PROUDLY MADE IN AUSTRALIA
USING INGREDIENTS SOURCED
FROM AUSTRALIAN FARMERS.

WHAT'S IN IT?

INGREDIENTS SELECTED FROM THE FOLLOWING: Cereals and their By-Products, Vegetable Protein Meals, Legumes, Fats and Oils, Molasses, Calcium Carbonate, Mono-Di Calcium Phosphate, Salt, Ridley Vitamin and Mineral Premix, Essential Amino Acids and Enzymes.

FEEDING GUIDE

Feed 1.8 – 2.6 kilograms per head per day to dry sows during the period from mating to farrowing depending on body condition and environment.

Feed *ad-libitum* throughout lactation following an initial step-up of feed quantity in the first few days after farrowing.

Ideally offer a supplementary fibre source such as chaff or bran to help prevent constipation before and after farrowing.

Make sure to provide greater than 3kg per head per day to sows during the period from weaning piglets through to re-mating.

Keep the feed as fresh as possible and remove any spoiled feed from the feeders to encourage optimal intake.

Ensure that pigs have access to clean, fresh water at all times.

This feed has been formulated specifically for animals as described on the package, or the label attached to the package, and must not be used for other species of animals.

THIS FEED IS UNSUITABLE FOR HUMAN CONSUMPTION.

This feed does not contain Restricted Animal Material.

The information provided in this specification is exclusive to the product identified and is accurate at the time of writing. The manufacturer accepts no responsibility if this feed is used in quantities, conditions or in any way other than in accordance with the manufacturer's recommendations.

STORAGE REQUIREMENTS

For optimum quality and shelf life, product should be stored below 30°C and off the floor in a cool, dry, well ventilated area protected from direct sunlight.
