FEEDING GUIDE

Feed *ad-libitum* to pigs throughout the growing phase from 15 weeks of age (approximately 50kg live body weight) through to market or breeding at 22 weeks of age.

May be fed from as early as 12 weeks of age if desired, following a weaner feed.

Keep the feed as fresh as possible and remove any spoiled feed from the feeders to encourage optimal intake.

Ensure that pigs have access to clean, fresh water at all times.

This feed has been formulated specifically for animals as described on the package, or the label attached to the package, and must not be used for other species of animals.

THIS FEED IS UNSUITABLE FOR HUMAN CONSUMPTION.

This feed does not contain Restricted Animal Material.

The information provided in this specification is exclusive to the product identified and is accurate at the time of writing. The manufacturer accepts no responsibility if this feed is used in quantities, conditions or in any way other than in accordance with the manufacturer's recommendations.

STORAGE REQUIREMENTS

For optimum quality and shelf life, product should be stored below 30°C and off the floor in a cool, dry, well ventilated area protected from direct sunlight.
